

# IRRIMAN

Implementation of efficient irrigation management for a sustainable agriculture

## Biannual meeting of partners Irriman Life Project

During this month, partners of Irriman Life was joined in several meetings in Córdoba.

University of Córdoba and Genil- Cabra Irrigation Community is situated in this city and in their center all partners monitored different tasks, they are included:

- Current Project status
- Activities or tasks done for each partner
- Explain planning of this year.

The second day, all partner visited Genil Cabra Irrigation Community installations, in that place, Project organised, Alejandro Pérez, he presents the first knowledge transfer from Irriman Project to farmers association which belong to Irrigation Community.

Lot of people attended to this seminar technical support. After exposition, Elias Fereres moderated a discussion between all presents.

This conversation showed the farmers interest in technical knowledge that Irriman Life+ Project is developed.
